- By Emo Tours Egypt spend A great time To Explore the **Wadi El Gemal National Park**, a desert area by Jeep with a fairly green and heavily vegetated ecosystem, home to many rare and endangered animals. Dorkas gazelles, Nubian ibex, African (wild) donkeys and mane-jumper are found there. In the wadi you can see wild dromedary herds, with a bit of luck also the offspring.
- The landscape is very different from the desert, which most tourists know. You will visit the historically important ruins, which date from Greco - Roman times
- You drive through the wadi with our knowledgeable Bedouins. On the way you will stop again and again to visit the landscape and the ruins. and get alot photo you will never forget
After you finish the tour, drive back to your hotel in Marsa
